- Canyons School District Bond passed during the election in November of 2017. The project which were presented to the patrons of the district will begin in early spring/summer. The district has said the high schools will have priority. The number of classrooms being added to CCHS has yet to be decided by the district. The district is looking at the future population of CCHS before they decide the number of classrooms being added to the school.
- One of the members asked if the counselors were continuing to see high numbers of students reporting students thinking of suicide, or students asking for help thinking of suicide. Amy Hardcastle said she felt that the number of students were up at the beginning of the school year but that the numbers have decelerated and evened out at this time. The trend, for suicidal thoughts among high school students, is up throughout the country. Many consider this trend to be tied to social media. Social media causes stress for students and many specialists feel the more the student is on social media the more isolated the student feels.  
There were many suggestions discussed in regard to information and resources provided for parents, form the district and other sources, to help their student if they were concerned about depressions/suicidal thoughts.
- The school calendar for the school year 2019 -2020 has been changed. The first day of school will August 19, 2019 and the last day of school will be May 29, 2020.
